

St. Columba's Catholic Primary School

Curriculum information sheet for Autumn 1

Nursery

Dear Parents,

We hope you had a lovely summer holiday and we are very excited to be starting the new school year.

During the first 2 weeks of term we have been learning about Autumn and the changes this season brings, including the change in the weather and temperature. When our new children have started and are settled, we will be moving on to our main topic which is space. The children will be hearing stories all about aliens, planets, stars and the moon. We will be doing lots of activities about space as well as using it to learn in all the areas of development. We will be developing our listening and communication skills and exploring, building and making to develop our creativity and critical thinking. We will keep you updated on what happens in nursery on our daily sheets which you can find in the cloakroom.

As always, it is not just the learning which is happening at Nursery which we value. If your child is doing anything amazing at home, please let us know. You can write about your child's achievements and add pictures to your child's electronic learning journey online, or write a WOW cards. WOW cards can be found in the cloakroom. These can then be put in your child's learning journey book.

If you would like to have a look at your child's learning journey book at any point, you are very welcome to. They are located in boxes by the door leading to the outdoor area. We record most of the children's work electronically now so simply log in to see what achievements your child is making at nursery. We keep our door open for 20 minutes at the start of every session. Therefore if you would like to stay and play with your child for a while, or look at your child's learning journey, please do so.

Thank you very much for your support.
